

THE MINDSEYES

Resumé of Jim S. Amos
website: www.mindseyes.net

My name is Jim S. Amos and my story starts in the glorious year of nineteen hundred and seventy three in Upland, California. I was raised with strong family values and taught from an early age working hard for something is more satisfying than having it handed to you. This virtue is one of my strongest still to this day. Through out the years I have acquired many skills that make me useful in several areas, a kind of "jack-of-all-trades". Graphic/Web Design is another skill I have acquired and will continue to develop to points unknown.

RE: James Amos – Letter of Recommendation

Dear Employment Professional,

Congratulations to you on finding James Amos. If I had not accepted a CEO position over 100 miles away from James, I would not be writing this letter. Truly as an example, in just the past two years, he has been instrumental with two separate "Mission Impossible's."

From concept to final delivery, the contribution of James was:

Absolutely critical in TORB's Remote Life being selected as a finalist for Product of the Year at the 2004 Consumer Electronics Show (CES). James created both the corporate web site www.torb.com and the entire user interface for accessing every facet of their home automation appliance.

Essential to completing a suite of mini web-sites for the second-largest travel management company. Consulting with Navigant International. James's impact is being played out 24/7 every day with over 10,000 corporate clients.

As a result of his skillful determination and 11th hour heroics, James has profoundly amazed me with his sacrifices on many occasions.

Reach me at either ddietrich@ether2.com, or 714.809.3283 for any needed follow-up.

Sincerely,

David Dietrich
CEO

February 14, 2005

My name is Hank Barela

I am the President of Ikon Imaging in Rancho Cucamonga, CA.

From the beginning of 2001 until the end of 2002 I had James Amos working here. He was doing color correction, typesetting, color separation, and operating a large format film processing unit. He is an excellent employee. Always on time and there till the job is done. I highly recommend him for any company environment. Feel free to contact me about him.

A handwritten signature in black ink that reads 'Hank Barela'. The signature is fluid and cursive, with the first name 'Hank' being more prominent than the last name 'Barela'.

February 17, 2005

To whom it may concern,

James Amos has been doing professional graphic and web design for my own company Creative Underground for the past two years and is also doing the design and development of the Abrazo Foundation website. His work is always quality. I think he would be a great addition to Platt's Faculty. He is willing to do what it takes to get the job done.

Sincerely,

A handwritten signature in black ink that reads 'B. MARTINEZ'. The signature is stylized with a large, flowing 'B' and a long horizontal stroke extending to the right.

Bill Martinez

February 11, 2005

To whom it may concern,
James Amos has been doing contract work consistently for KirkRich Dial the past year. He has been recreating complex and valuable watch faces for finicky clients. I have found his work to be excellent, on time and personally, he is easy to work with, patient and trustworthy. James always gives 150%.
He would be a great asset to any company.

Sincerely,

Louis Giacchetti
President, KirkRich Dial
